

JAN LOUIS CO LOQUIAS

Contact: 09772684730

Email: janlouis.loquias@gmail.com

Address: Quezon City, Metro Manila

Portfolio: <https://jlw-portfolio.vercel.app>

IT professional with 3 years of technical experience in developing and maintaining back-office web applications for employee management and business reporting. Proficient in HTML, JavaScript, CSS, Bootstrap, PHP, Python, SQL, REST APIs, and Apache Airflow. Experienced in building and maintaining data pipelines, transforming large datasets, automating data workflows, and delivering business-ready reports to support data-driven decision-making. Familiar with Git and GitHub for version control, source code management, and collaborative development.

EXPERIENCE

JR. APPLICATION DEVELOPER

Philweb Corporation - Pasig City

October 2023 - Present

Responsibilities

- Performed data analysis and data transformation on large volumes of casino transaction and gameplay data to support daily operational reporting.
- Developed and maintained automated ETL/data pipelines using Python and Apache Airflow for centralized reporting and operational analytics.
- Designed and delivered business-ready CSV and Excel reports used by Finance and Marketing teams for revenue analysis and performance monitoring.
- Wrote and optimized SQL queries (MySQL) to support reporting, validation, and data aggregation requirements.
- Worked closely with business users and stakeholders to gather reporting requirements, define solutions, and present results in a clear and concise manner.

Projects Handled

- Automated ETL & Reporting Pipeline for Casino Gameplay Analytics
Tools Used: Python, Apache Airflow, MySQL, Linux
 - Built an automated daily reporting pipeline that reduced manual data processing time by 80%.
 - Integrated external APIs to retrieve raw gameplay and transaction records.
 - Designed data transformation workflows to clean, normalize, validate, and aggregate large transactional datasets.
- Casino Transaction Reporting System
Tools Used: PHP, JavaScript, jQuery, MySQL, CSV, Excel, Linux
 - Developed a reporting module that allows users to filter, aggregate, and export casino transaction data into CSV and Excel formats.
 - Enabled Finance and Marketing teams to independently analyze gameplay trends, player activity, and revenue-related data.
 - Improved reporting consistency and reduced dependency on manual data requests.
- Launchpad Web API
Tools Used: PHP, MySQL, Postman, Linux
 - Designed and developed RESTful APIs to deliver personalized game recommendations based on players' recent gameplay.
 - Enhanced user engagement by providing dynamic, data-driven content on the casino launchpad platform.
 - Optimized API performance to ensure fast and reliable data delivery for a seamless user experience.

PRACTICUM

IT CONSULTANT

Elyon Solutions International Inc. - Makati City

February 2023 - May 2023

Responsibilities

- Developed client-specific training manuals using the Odoo ERP platform to support system adoption and user onboarding.
- Conducted live demonstrations and user training sessions on Odoo functionalities for clients.
- Provided end-to-end client support, including system configuration, troubleshooting, and issue resolution within Odoo environments.

SKILLS

Data Analysis & Reporting:

- Data extraction, cleaning, and transformation
- Business reporting (CSV / Excel outputs)
- Power BI

Programming & Querying:

- Python (ETL, data processing)
- SQL (MySQL - reporting queries)
- Relational database design

Additional Technical Skills:

- PHP (OOP, MVC)
- JavaScript, jQuery
- HTML5, CSS3, Bootstrap
- Linux
- Github & Git

Data & Automation Tools:

- Apache Airflow
- REST APIs
- Postman
- Excel (CSV-based reporting)
